Very Important Legislative Update for Your Club Locations

To: All PAMMA Members
From: Sherm Smith, President
Date: January 27, 2012

The House and Senate have reached an agreement on expanding the small games of chance law and have sent H.B. 169 to the Governor for his signature. Corbett has said he will sign it. This is the legislation that they have been discussing for over five years.

It will have major consequences – mostly good, but some bad – on many of your club locations. The legislation does not include your taverns.

We mailed our members a hard copy of a rather detailed analysis on this new law and have touched on most of the high points. **We recommend that you take the analysis and distribute to your club locations. There is some confusion about the new law and this could help your customers understand it better – and appreciate your value even more!** It will be extremely useful information for each of them. You can tell them that your association is there to help them make money – just like we did with the smoking law several years ago.

As always, we look forward to your feedback, feel free to call 1-800-521-7778.

Thank you for your continued support of your association.
